

KAGUYA(SELENE) Data Archive

What's New

User Authentication

- (1) User authentication has discarded. JAXA provides Kaguya data for all people who have interest in the Moon. Fee is free but you have to accept our licence agreements before touch the start button.

Data Search

- (1) New mapping system is designed based on OGC Web Map Service (WMS). No more Java Run time environments!
- (2) From - to selection is available for all parameters in the advanced search options.

Data Order

- (1) You can download data products and URL list of data products by the download page. URL list will be useful for wget or curl users.
- (2) Data processing service has stopped because of avoidance to spend a much of computer resources caused by user access.
